LEAD THE WAY

COROLLA
QUEST

a firm favourite

*You're proud to be South African, this is your country, your home - and we feel the same way. Toyota SA is proud to introduce the new 1.6 Corolla **Quest**, a Corolla that has all the heart, space, safety and value you've come to know and love about the Corolla over the years. Which is why there is no doubt that the Corolla **Quest** is sure to be another South African favourite.*

*The Corolla **Quest** is just as at home in South Africa as you are. With a comfortable interior and a reliable, fuel-efficient 1.6 litre engine - you can tour the rich landscape and explore the diverse places our beloved country has to offer in true comfort.*

MODEL SHOWN 1.6 COROLLA QUEST PLUS

every journey a favourite

Enjoy the breathtaking scenery and the bustling cities South Africa has to offer in a smooth, comfortable ride.

*Fitted with MacPherson front suspension and Torsion Beam rear suspension for superior handling, the Corolla **Quest*** delivers a comfortable and enjoyable drive.*

The 1.6l petrol engine puts out an impressive 90 kW of power and 154 Nm of torque. It is available in either a 6-speed manual transmission or a 4-speed automatic.

The Corolla **Quest features a standard service plan for 3 years or a maximum of 45 000 km.*

Look the part in the dynamically designed Corolla **Quest**.

The Corolla **Quest** has a fresh, modern look that flows from the front grille all the way through to the rear combination lamps. Black finishes on the headlamps, a black radiator grille and striking dark gun-metal coloured rear combination lamps give the Corolla **Quest** a sophisticated appearance.

All models have electrically adjustable mirrors and colour-coded bumpers. The Corolla **Quest** Plus model has colour-coded door handles and 15" alloy wheels.

favourite way to travel

your favourite space

With abundant space for you and your family, you'll be able to enjoy road trips to exciting holiday destinations in true comfort.

*Designed with comfort in mind, the Corolla **Quest** has a spacious interior to ensure an ultimately comfortable ride for both the driver and passengers. Air-conditioning and electric front windows are standard on all models to keep you cool and comfortable.*

*While quality was a priority when developing the Corolla **Quest**, we didn't forget about functionality. The Multi-Information Display cluster provides all the important information and meters needed for an easy and safe drive. The Corolla **Quest Plus** model also comes standard with a radio and CD player with four speakers, as well as auxiliary and USB inputs to keep you entertained.*

*But the Corolla **Quest** is not just spacious for you - there is also extra storage space. You'll find door pockets in the front and rear, as well as a bin type glove box, console box and luggage capacity of 450 litres - perfect for storing all the necessities you'll need on your road trips.*

safety in knowing

Corolla is synonymous with safety and reliability, and the Corolla **Quest** is no exception. Each model comes standard with driver and front passenger airbags to keep you protected when you need to be.

Electronic Brake-Force Distribution (EBD) minimises stopping distances by shifting more braking pressure to the wheels with the most grip, keeping the Corolla **Quest** stable and balanced when braking. The **Anti-lock Braking**

System (ABS) monitors the speed of each wheel to detect locking and releases braking pressure and provides optimum braking pressure to each wheel, improving steering control during sudden stops. **Brake Assist System**

(BAS) detects attempted panic stops and supports you by strengthening braking power. This helps you to brake safely in case of emergency.

We've also considered security features: models are fitted with an immobiliser and an alarm, as well as remote control central locking. Child protection locks on rear doors and ISO-FIX seat belt anchors are fitted to ensure your precious cargo stay safe and sound on your journeys.

Toyota's vision of sustainable mobility is ingrained and honoured at all levels. The introduction of a company-wide Environmental Management System (EMS) ensures this.

EMS guarantees constant progress at Toyota worldwide, as it not only allows for efforts such as measuring the environmental impact of our vehicles over entire life cycles, but has also driven the radical reduction of the environmental impact at our manufacturing plant, and along our entire supply chain. Any current negative impact is being addressed through the comprehensive Toyota Environmental Action Plan, known as ECO-Project. This encompasses all areas of Toyota's operations from the design of new vehicles and manufacturing processes, to the use of materials and end-of-life recycling programmes. Thanks to a philosophy of continuous improvement and the quest for zero emissions, Toyota's new generation engines are cleaner-burning than ever with dramatically reduced exhaust emissions. Toyota is serious about combating the problems associated with waste tyres in the country and has therefore taken up its producer responsibility as defined by the Waste Management Act of 2008. Waste Tyre Registration Number: TPREG0031GAU
