REASONS TO GET IN

The new Avanza, with its well-defined style, seating for seven, spacious interior, solid performance and fuel efficiency is designed with the comfort loved by families and convenience needed by businesses.

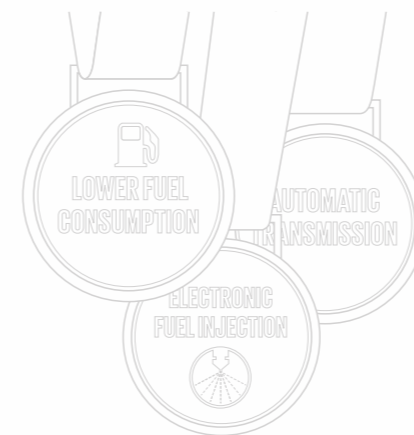

While the Avanza is the most economical seven-seater in its class, it does not compromise on the value of a smooth and effortless drive. Rather, it looks to enhance your Toyota experience with interior quality improvements for your comfort. The Avanza further boasts a new grille design that elevates its grand appearance. Along with a back-door garnish, new hood design and newly designed headlamps for a more refined and sleek finish. Available in 1.3 litre and 1.5 litre engine sizes,

the Avanza aims to impress with its ability to go the distance for your family or business. The Avanza is available in a range of five different models: 1.3 S, 1.3 SX, 1.5 SX, 1.5 SX AT and including the top-of-the-range 1.5 TX model. You can also find the 1.5 SX model in a four-speed automatic transmission - necessary for flexible motoring when the need arises. Making it the perfect fit for families and businesses.

Whether running the family around or running a business, the Avanza is designed to deliver sure-footed, spirited performance with excellent fuel economy - a winning combination for a vehicle of this size.

GETTER

The Avanza has all the performance and power you need to keep your family and your business on the move. The 1.3 litre engine has 71 kW of power at 6000 r/min and delivers torque of 121 Nm at 4200 r/min, while the 1.5 litre has 77 kW of power at 6000 r/min and delivers torque of 136 Nm at 4200 r/min. Also integrated into the 1.5 litre SX is the Avanza automatic transmission, which makes driving in

traffic easier and more convenient. Avanza engines are equipped with an electronic fuel injection system that delivers lower fuel consumption and fewer emissions. Avanza also has an Eco Indicator, which is displayed on the Multi-Information Display (MID) and illuminates while the vehicle is being driven efficiently. The unit will assist the driver to achieve higher fuel efficiency.

To step it up a notch, the new, bold lines and elegant detail on the Avanza mean creating just the right impression on the road. Not only do the Avanza S and SX models come fitted with impressive 14" steel wheels, the TX model also has 15" alloy wheels, colour-coded bumpers and door handles on all models, as well as colour-coded exterior mirrors on the SX and TX models that enhance the Avanza's exterior appeal. All S and SX models also come with a colour-coded front grille, while the TX model comes with a chrome grille, front fog lamps and privacy glass. If anything, you can be sure the Avanza's good looks and build will take your family or business anywhere with comfort and in style.

UP

The Avanza has a sleek look so no matter where your family or business takes you, the Avanza will make sure that you do it in style and have you looking like a professional.

Lots of people to see, places to go and things to do usually mean lots of things that need to go with. The Avanza is specially designed to provide space and comfort for all its seven passengers, which it does perfectly with its generous interior space and comfortable seating.

FIT TO YOUR LIFE

FOR FAMILIES AND BUSINESSES ALIKE, THE AVANZA HAS SPACE IN ALL THE RIGHT PLACES.

The Avanza helps keep everything organised with clever storage and space solutions that make it easy for busy families and businesses to stow their gear. There are driver and passenger seat back pockets,

and door pockets for odds and ends such as sunglasses, books, magazines, etc. The left and right side of the third row can be tumbled independently, providing a wide variety of seating arrangements.

Lots of people to see, places to go and things to do usually mean lots of things that need to go with. The Avanza is specially designed to provide space and comfort for all its seven passengers, which it does perfectly with its generous interior space and comfortable seating.

Second row seats split forward for easy access to the rear, while the third row split-seat, cushion-tumble feature enables expansion of the luggage space.

The Avanza's seats easily reconfigure to suit your specific needs, with three rows of seats that have ample legroom for all passengers.

The S and SX models have two speakers. The TX model has four speakers and an audio system with integrated steering wheel controls. The TX model also features a Multi-Information Display (MID) cluster that displays all the information you need to command the road in front of you, such as fuel consumption and average speed.

TAKING CARE OF BUSINESS

The Avanza is also as enjoyable as it is spacious. Power steering makes for an easy drive with electrically-adjustable windows (driver and front passenger only) for everyone's comfort. Manual air-conditioning systems are available on SX and TX models, with dual-zone functionality on the TX models.

SAFETY

IN NUMBERS

Running families and businesses requires plenty of time on the road, running between points A and B and sometimes to what seems like point Z. The Avanza was specifically designed to take everyone's safety into account.

1.5 TX model shown

The Avanza has an Anti-lock Braking System (ABS), an essential active safety feature that prevents the wheels from locking up on slippery surfaces. EBD (Electronic Brake-force Distribution) is now available on all models as well as airbags for the driver and front passenger, which come standard. Child rear protection locks are also a standard feature. For security, the Avanza comes equipped

with an alarm, immobiliser and remote control central locking. And one less thing for you to worry about is the key and light reminder system that alerts you when you leave your keys in the ignition or when your lights are left on. So no matter if it's your family or business that keeps you on the road, your Avanza will keep you safe.

GOALS

FOR YOU AND THE ENVIRONMENT

ENGINE SIZE	CO ₂ EMISSIONS (g/km)	FUEL CONSUMPTION (l/100 km)

1.5 SX	150	63
1.5 SX AT	160	67
1.5 TX	150	63

**The fuel consumption and CO₂ values of your vehicle may vary from those measured. Driving behaviour, as well as other factors such as road conditions, traffic, vehicle conditions, installed equipment, load and number of passengers play a role in determining a car's fuel consumption and CO₂ emissions. Toyota is serious about combating the problems associated with waste tyres in the country and therefore has taken up its producer responsibility as defined by the new Waste Tyre Management Act of 2008.*

While the Avanza was designed with ample space to be both family- and business-friendly, a lot of thought was also given to making the Avanza as environmentally-friendly as possible. Along with the Eco Indicator, the new Avanza range is now even more fuel efficient than the previous models. With the health of our world in mind, materials that are easy to recycle, such as polypropylene,

are used wherever possible. Many of the Avanza's exterior features, including its front and rear bumpers, are made from this material. The Avanza is also compliant with Euro 2 emissions regulations. It all means that whether you're driving an Avanza for your family or business, you'll be driving with a clearer conscience.

Avanza accessories give you more of just what you want from your Avanza and this can make a big difference for your family or business. Contact your nearest Toyota dealer for a full list of Avanza accessories.
