

Ses'fikile

The modern solution to everyday transport challenges – now with an extra seat!

The Ses'fikile. Passenger transport just got more modern, more powerful, more comfortable, more economical and safer than ever.

The Ses'fikile is purpose-built around a backbone of Toyota's hallmarks, Quality, Durability and Reliability – to become South Africa's most wanted minibus. With the kind of exclusivity and comfort people queue up for.

Here is a minibus that is truly empowered to get a busy nation to work. In style, comfort and safety. And move our country, from where we are, to where we should be.

Arrive safely. Apart from all mandatory taxi recapitalisation safety specifications, the Ses'fikile ensures that drivers and passengers get the maximum protection with ABS (Anti-lock Braking System), BAS (Brake Assist System), driver and front passenger airbags and central locking, and safety belts for every passenger. Modern front suspension, with independent double wishbone and stabiliser, and a rigid axle and leaf spring suspension at the rear, means you can rely on good road holding, no matter how challenging the traffic or how tricky the road surfaces. Rear window demisters and front window wipers with washer and intermittent function help to keep your outlook clear.

Arrive comfortably. The Ses'fikile has maximised interior space – and has now added an extra seat. Fifteen passengers can be seated very comfortably, in seats that both cushion and support every individual. Cup holders have been provided in front and PVC flooring provides a durable non-slip surface.

Arrive economically. A powerful 2.7 four cylinder VVT-i petrol engine (with Variable Valve Timing – intelligent) or the new 2.5 litre D-4D intercooled common rail turbo diesel engine mean low fuel consumption, reduced emissions and a satisfying drive experience.

2.7 VVT-i Petrol Engine
VVT-i (Variable Valve Timing – intelligent) engine technology combines outstanding drivability with low fuel consumption and reduced emissions.

2.5 D-4D Diesel Engine
Common rail technology allows for the precise measurement and injection timing of fuel. The result? More power, better fuel consumption, less noise and less pollution.

Engine and Drivetrain	2.7 VVT-i	2.5 D-4D
Engine code	2TR-FV	2KD-FTV
Engine type	Catalytic converter	Turbo charged, common rail
Maximum power (kW @ r/min)	111 @ 4800	75 @ 3600
Maximum torque (Nm @ r/min)	241 @ 3800	260 @ 1600 - 2400
Transmission	5-speed manual	5-speed manual
Fuel type	Petrol	Diesel
Suspension		
Front suspension	Independent double wishbone, stabiliser bar	Independent double wishbone, stabiliser bar
Rear suspension	Rigid axle, leaf springs	Rigid axle, leaf springs
